LANDSCAPING WITH TREES & PLANTS:

Sanskriti School of Business is situated in lush green 2.48 acres of land. In the campus, nearly 35 species of plants were planted. Students of N.S.S., non-teaching staff will take care of the campus and keep the campus green & clean at all the times.

The campus landscape, like its buildings, can be seen as the physical embodiment of a college's values. It is a vital part of the life of a campus, providing space for study, play, outdoor events, relaxation and aesthetic appreciation. Green campus landscapes also manage runoff, help recharge groundwater, and clean and cool the air on campus. The landscape serves as a visual representation of the campus community's commitment to sustainability. As campus landscapes are so visible and accessible, landscaping initiatives are a great way to build awareness around the environment.

There are more than 1500 trees and more than 2000 shrubs on campus along with 2823.48 acres of grass cover. The landscape of trees and plants provide the 1000+ students and staff with clean and cool air and is a soothing environment.

The diverse green cover of the institute is also home to a number of animals and rare birds across at least 24 species, creating a campus rich in biodiversity. The college commits to enriching this healthy habitat and maintaining the symbiotic relation of the institution with nature by

- Organizing annual tree plantation drives
- Encouraging student societies to hold tree planting events

Landscaping with trees and plants

Every year during rainy season, Institute takes the initiative of plantation inside the campus. Plants are some of the easiest (and most sustainable) ways to make a landscape more vibrant.

and welcoming. Planting the right tree for the right place helps ensure that your tree will live a healthy life for years to come. The most successful designs are those that are planned and take climate and environmental factors into consideration.
